Knowledge	**Similarity of Focus Occupation to Associated Occupation: 84**

Focus Occupation: Biochemists and Biophysicists (19-1021)
Associated Occupation: Microbiologists (19-1022)

Associated Occupation's Key Knowledge Elements	Average Rating, All Occupations	Associated Occupation's Rating	Focus Occupation's Rating		Evaluation of Focus Occupation
Biology	3.7	24.1	20.3	<<	Extensive education and/or training may be required
English Language	11.2	16.6	13.5	<	Expanded education and/or training may be required
Chemistry	4.8	15.2	16.3	0	Current knowledge level may be sufficient
Medicine and Dentistry	3.7	10.7	8.6	<	Expanded education and/or training may be required

The maximum possible rating is 25.

Skills	**Similarity of Focus Occupation to Associated Occupation: 97**

Focus Occupation: Biochemists and Biophysicists (19-1021)
Associated Occupation: Microbiologists (19-1022)

Associated Occupation's Key Skills Elements	Average Rating, All Occupations	Associated Occupation's Rating	Focus Occupation's Rating		Evaluation of Focus Occupation
Science	4.5	17.0	16.3	0	Current skill level may be sufficient
Reading Comprehension	10.7	15.5	16.4	0	Current skill level may be sufficient
Critical Thinking	10.8	15.0	15.9	0	Current skill level may be sufficient
Writing	9.2	14.8	16.5	>	Skill level is likely sufficient
Active Learning	8.7	14.7	16.1	0	Current skill level may be sufficient
Learning Strategies	7.2	12.2	13.2	0	Current skill level may be sufficient
Mathematics	6.2	11.0	12.7	>	Skill level is likely sufficient
Management of Personnel Resources	6.9	10.6	10.1	0	Current skill level may be sufficient
Systems Analysis	6.5	10.6	11.1	0	Current skill level may be sufficient

Systems Evaluation	6.4	9.9	10.1	0	Current skill level may be sufficient
Operations Analysis	5.0	8.8	8.6	0	Current skill level may be sufficient

The maximum possible rating is 25.

Abilities — Similarity of Focus Occupation to Associated Occupation: 97

Focus Occupation: Biochemists and Biophysicists (19-1021)
Associated Occupation: Microbiologists (19-1022)

Associated Occupation's Key Abilities Elements	Average Rating, All Occupations	Associated Occupation's Rating	Focus Occupation's Rating		Evaluation of Focus Occupation
Inductive Reasoning	10.2	18.0	17.5	0	Current ability level may be sufficient
Written Comprehension	11.0	16.5	16.4	0	Current ability level may be sufficient
Problem Sensitivity	11.1	16.1	15.0	0	Current ability level may be sufficient
Category Flexibility	9.0	16.0	16.1	0	Current ability level may be sufficient
Deductive Reasoning	10.6	15.7	16.0	0	Current ability level may be sufficient
Written Expression	9.8	15.5	17.8	>	Current ability level is likely sufficient
Near Vision	11.1	15.0	13.8	0	Current ability level may be sufficient
Information Ordering	9.9	13.9	14.8	0	Current ability level may be sufficient
Flexibility of Closure	7.8	13.6	12.5	0	Current ability level may be sufficient
Fluency of Ideas	7.6	12.8	14.4	>	Current ability level is likely sufficient

The maximum possible rating is 25.

Activities that Both Occupations Have in Common — Similarity of Focus Occupation to Associated Occupation: 97

Focus Occupation: Biochemists and Biophysicists (19-1021)
Associated Occupation: Microbiologists (19-1022)

Work Activities	Exclusivity of Activity
Adhere to safety procedures	12
Advise clients or customers	19
Advise governmental or industrial personnel	28
Analyze biological research, test, or analysis data	70
Analyze scientific research data or investigative findings	27
Classify plants, animals, or other natural phenomena	69
Collect academic research data	62
Collect scientific or technical data	30
Collect statistical data	47
Communicate technical information	4
Conduct analyses or tests of organic compounds	71
Conduct field research or investigative studies	52
Conduct laboratory research or experiments	57

Conduct standardized qualitative laboratory analyses	62
Conduct standardized quantitative laboratory analyses	62
Confer with engineering, technical or manufacturing personnel	25
Confer with research personnel	50
Confer with scientists	54
Develop new products based on scientific research results	71
Develop or maintain databases	30
Develop plans for programs or projects	31
Develop policies, procedures, methods, or standards	21
Develop scientific or mathematical hypotheses, theories, or laws	62
Develop tables depicting data	33
Direct and coordinate scientific research or investigative studies	27
Direct implementation of new procedures, policies, or programs	60
Examine biological or other material specimens under microscope	73
Explain complex mathematical information	30
Explain genetic data	87
Follow infectious materials procedures	52
Follow microbiology procedures	74
Follow safe waste disposal procedures	50
Forecast or predict phenomena based upon research data	71
Identify nutritional value of foods	87
Maintain records, reports, or files	5
Make decisions	24
Make presentations	13
Perform statistical analysis	71
Plan scientific research or investigative studies	48
Prepare biological specimens for examination	84
Prepare reports	8
Prepare technical reports or related documentation	22
Prepare vaccines, biologicals, or serums	85
Recommend further study or action based on research data	60
Record test results, test procedures, or inspection data	48
Research human or animal disease	77
Resolve engineering or science problems	46
Understand pharmaceutical formulas	89
Use biological research techniques	68
Use biological testing instruments	73
Use chemical testing or analysis procedures	54
Use computers to enter, access or retrieve data	3
Use hazardous materials information	35
Use knowledge of investigation techniques	16
Use laboratory equipment	60
Use library or online Internet research techniques	21
Use mathematical or statistical methods to identify or analyze problems	30
Use microscope	71
Use nutrition research techniques	81
Use plant disease control techniques	75
Use quantitative research methods	35

Use relational database software	26
Use scientific research methodology	21
Use spreadsheet software	18
Use teaching techniques	29
Use word processing or desktop publishing software	17
Write business project or bid proposals	48
Write research or project grant proposals	33
Write scholarly or technical research papers	36

Not all positions in these occupations will necessarily perform all of the listed activities. The exclusivity rating is an indication of how unique the activity is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations engage in that activity.

Tools and Technologies that Both Occupations Have in Common	Similarity of Focus Occupation to Associated Occupation: 86

Focus Occupation: Biochemists and Biophysicists (19-1021)
Associated Occupation: Microbiologists (19-1022)

Tools and Technologies	Exclusivity
Autoclave and sterilizer equipment and accessories	12
Cameras	2
Chemical evaluation instruments and supplies	10
Chromatographic measuring instruments and accessories	16
Clinical and diagnostic analyzers and accessories and supplies	18
Computer printers	2
Computers	1
Content authoring and editing software	1
Crystallography equipment	23
Data management and query software	1
Electrochemical measuring instruments and accessories	9
Fermentation equipment	31
Gas analyzers and monitors	10
General laboratory glassware and plasticware and supplies	13
Histology equipment	35
Indicating and recording instruments	2
Industry specific software	1
Information exchange software	1
Laboratory baths	24
Laboratory blending and dispersing and homogenizing equipment and supplies	27
Laboratory centrifuges and accessories	13
Laboratory cooling equipment	25
Laboratory decanting and distilling and evaporating and extracting equipment and supplies	19
Laboratory electron and solid state physics equipment	29
Laboratory electrophoresis and blotting system and supplies	26
Laboratory enclosures and accessories	17
Laboratory environmental conditioning equipment	24
Laboratory freeze dryers and lyopholizers and accessories	40

Laboratory heating and drying equipment	13
Laboratory incubating equipment	20
Laboratory microscope slides and supplies	20
Laboratory mixing and stirring and shaking equipment and supplies	19
Laboratory ovens and accessories	15
Laboratory pumps and tubing	23
Laboratory water purification equipment and supplies	29
Light and wave generating and measuring equipment	4
Network applications software	1
Pipettes and liquid handling equipment and supplies	16
Safety apparel	4
Spectroscopic equipment	10
Temperature and heat measuring instruments	6
Test Tubes	26
Viewing and observing instruments and accessories	4
Weight measuring instruments	7

Not all positions in these occupations will necessarily use all of the listed tools and technologies. The exclusivity rating is an indication of how unique the tool or technology is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations use that tool or technology.
